Provimil® is brand of Cargill®, a family-owned company with more than 150 years' experience in developing food and feed ingredients. Cargill® develops results-oriented nutritional solutions and feeding programmes, which in turn help producers grow their business. Premixes and concentrates, speciality feeds and additives are produced under the Provimil® brand.

**ProviMilk® calf
milk replacers**

**For the start
of a lifetime**

A recipe for success

An easy-to-mix formula using the latest technologies.

The ProviMilk® range has been developed with both you and your calves in mind; all products are easy to mix and highly palatable to maximise feed intake in young calves. Using the latest ingredient technologies, ProviMilk® calf milk replacers are designed for optimal calf growth, health and performance. All ProviMilk® calf milk replacers provide a safe and cost-effective alternative to whole milk.

- **Skim and whey** based options, from carefully selected dairy sources;
- **Protein and oil** in forms that are easily digestible for the calf;
- **AmNeo** - amino acid formulation technology proven to increase growth* by balancing amino acids in young calves;
- **Trace element and vitamin** package to meet the requirements of the rapidly developing calf;
- **Unique flavouring** that encourages calves to drink;
- **NuStart® - gut conditioning package** to nourish and accelerate the development of the immature gut.

ProviMilk® calf milk replacers contain all the ingredients for the start of a lifetime

GUT CONDITIONING PACKAGE WITH ADDED VITAMINS & MINERALS

NuStart®
For the start of a lifetime

PROVEN NUTRITION TO SUPPORT LIFETIME PERFORMANCE

Good nutrition and management in early life will impact on the lifetime performance of an animal, so it's important to choose the right calf milk replacer. The ProviMilk® range is under continual development, incorporating latest global research combined with local knowledge to ensure your calves benefit from well-researched ingredients and technologies that fuel growth.

OUR QUALITY PROMISE TO YOU

You can always be confident with ProviMilk® calf milk replacers that your calves benefit from a highly digestible, nutritious and safe feed. Our ongoing rigorous testing and quality control processes ensures that ProviMilk® calf milk replacers:

- Always mix easily
- Contain only the highest quality and highly digestible ingredients
- Use only high quality dairy protein sources
- Contain raw materials from sustainable sources
- Perform consistently on-farm

THE NUSTART® DIFFERENCE: FOR GOOD HEALTH AND EXTRA GROWTH

Good health and immunity is vital in young calves, that's why all ProviMilk® calf milk replacers contain NuStart®, a unique gut conditioning package with added vitamins and minerals, to accelerate gut development, reduce digestive upsets and increase solid feed intake. Calves achieve up to 15% more growth* when this unique package is included in their calf milk replacer.

Supporting calves from birth to weaning and beyond:

NuStart® gut conditioning package is incorporated into our calf colostrum, all our ProviMilk® milk replacers and is also available for inclusion in your calf starter feed. This provides a strong link between liquid and solid feeding which helps with a smooth weaning process.
